Please indicate which of the following initiatives your Bee City School community has taken part in (check all that apply):

Creating new, maintaining or improving existing garden beds/ habitat at our school

Starting seeds

Planting flowers, vegetables, trees and/or shrubs at our school

Building and/or installing nesting sites

Information in newsletter

Other activities

Please indicate how your school community learned about pollinators (check all that apply):

Provide additional information

With our écolo club, we built nesting sites for pollinators and we also expanded our

about the previous initiatives or others focusing on education related to pollinators.

Did you celebrate pollinators during National Pollinator Week (third week of June) or at other times?

Yes

How did you celebrate pollinators?

Class presentations

Fun activities to engage students/others

Provide additional information about the previous initiatives or others focusing on celebrating pollinators.

A student of our school did a presentation to our école club on how she had brought our attention to bee city Canada.

What are your plans for the coming year?

We plan to continue improving our flowers beds. The grade 4 students will continue building insects hotels in science class. The club école also plan to start creating a nature trail behind the school fence to be able to observe nature from close (including pollinators).

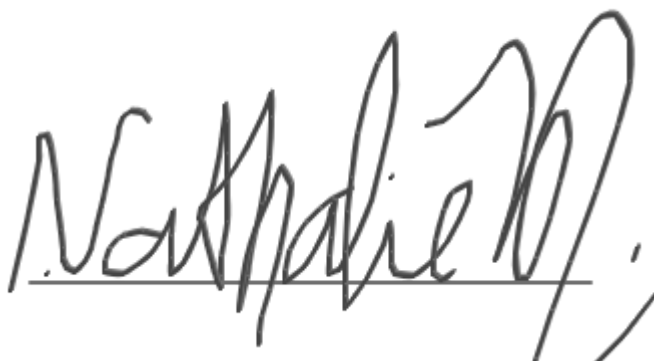

How can Bee City Canada help to facilitate your vision of a school community which supports pollinators?

By keeping sending activities that we can do with our classes. By sending us posters to inform our school community about Bee city Canada.

We welcome your comments and suggestions to help us improve Bee City Canada.

Maybe some French documentation? If you have any...
