Briefly summarize why your school should become a Bee City School. We are a rural school that cares very deeply about ecological issues, protecting the Earth and biodiversity.
In order to enhance the understanding of the students and staff about the vital role that pollinators play in a healthy ecosystem, the applicant agrees to meet the following commitments required of all Bee City

Schools:

1. Adopt the Bee City Canada Resolution (see section G).
2. Create a Bee City Pollinator Team.

3. Develop a Pollinator Habitat Action Plan:

Plans could be to create a pollinator garden with our community. The garden could also have bee hotels/homes that our community donates or creates with our school's Nature Team placed in it. Plant suggestions (and we are open to suggestions as well) include: aster, basil, black-eyed Susan, geranium, lavender, goldenrod, huckleberry, echinacea, rosemary, sage, snowberry, stonecrop, sunflower and buckwheat.

4. Promote Education about Pollinators:

Our Nature Team will lead the promotion of ecological initiatives at our school and in the community.

5. Celebrate Pollinators:

We will raise bee awareness! A spirit week at school with various lunch/recess activities like; a nature scavenger hunt, gardening or planting activities, school announcements, etc could happen during National Pollinator Week or throughout the school year.

I/we, the undersigned agree to:

1. Publicly acknowledge Bee City School designation through publicly displayed signage, city/region/community website and other means.
2. Annually re-apply for Bee City School designation. A renewal application will be sent to you.

Please submit a short 50-100 word write-up of why it's important to become a Bee City School.

We think it's important to be a Bee City School because the decline in bees is detrimental to our very existence. We are a very caring school that wants to do something to help the education of why bees are important AND we want to take action.
