Name of School

Stein Valley Nlakapamux School

Address

1675 St. Georges Rd
PO Bag 300
V0K1Z0, BC
Lytton

Name of Applicant

Todd Morrow

Applicant's Job Title

Principal

Organization or Department

Administration

Applicant's Email**Applicant's Phone****Are you the primary contact person?**

Yes

Contact's Name**Contact's Email****Contact's Phone****Briefly summarize why your school should become a Bee City School.**

Stein Valley Nlakapamux School has a deep connection to the land that surrounds us and all that inhabit it. We pride ourselves on our ability to care for the land just as it cares for us. Part of how we do that is through

agriculture, planting many native plants, and through taking care of other life forms both big and small. We are running a large gardening program which we hope to have attracting many different pollinators!

In order to enhance the understanding of the students and staff about the vital role that pollinators play in a healthy ecosystem, the applicant agrees to meet the following commitments required of all Bee City Schools:

1. Adopt the Bee City Canada Resolution (see section G).
2. Create a Bee City Pollinator Team.

Pollinator Team Members

Todd Morrow - Principal

3. Develop a Pollinator Habitat Action Plan:

Planting Fruits and Veggies

Tending to the community Garden (On site)

Cultivating a Medicine garden

4. Promote Education about Pollinators:

We would love any assistance with this that can be offered!

Much of the BC curriculum speaks about biodiversity and we will look to include information about pollinators.

Any resources would be greatly appreciated!

5. Celebrate Pollinators:

Students will create posters / presentations (up to the classroom teacher)

Students will plant flowers around campus

I/we, the undersigned agree to:

1. Publicly acknowledge Bee City School designation through publicly displayed signage, city/region/community website and other means.
2. Annually re-apply for Bee City School designation. A renewal application will be sent to you.

Please submit a short 50-100 word write-up of why it's important to become a Bee City School.

This is an important initiative because it looks to defend the pollinators that we rely so heavily on. Educating our students about pollinators and how to care for them is the only way to ensure a bright future for the next generations. As a First Nation School, a huge part of our mandate is to care for the land and all that inhabit it. Becoming a Bee City School is an excellent way to take care of all of the different life forms that rely so heavily on Bees of all kinds!

Attach your school logo (png format) with any usage guidelines.
