

Bee School Application

Name of School

Marjorie Mills Public School

Address

99 Indian Road Box 730
Longlac, ON
P0T2A0

Name of Applicant

Patricia McNeely

Applicant's Job Title

Educator

Organization or Department

Superior Greenstone District School Board

Applicant's Email

pmcneely@sgdsb.on.ca

Applicant's Phone

+18076288062

Are you the primary contact person?

Yes

Briefly summarize why your school should become a Bee City School.

Our school believes that it is important to keep bees alive! We believe it is important for us to become a Bee City school because it helps bring awareness to the community and supports the student's interests. We have been learning about the importance of the world around us and keeping our planet safe, this includes the bees. We have the benefit of having lots of yard space to build and expand our pollinator garden to give the bees a large space to thrive! We are committed to continuing to learn about bees and to help keep bees protected.

In order to enhance the understanding of the students and staff about the vital role that pollinators play in a healthy ecosystem, the applicant agrees to meet the following commitments required of all Bee City Schools:

1. Adopt the Bee City Canada Resolution (see section G).
 2. Create a Bee City Pollinator Team.

Kristan McMahan
Students in the K-2 class

3. Develop a Pollinator Habitat Action Plan:

Our plan is to create a pollinator garden in front of our school. This will involve researching plants that grow in our area that will help bees thrive. We have lots of yard space in the front of our school that the bees can use and be left alone to thrive. We also plan to educate our students and our community about bees and why they are so important to our planet. Into the next school year we plan to analyze what is and isn't working to make a plan to expand and improve the space in the future.

4. Promote Education about Pollinators:

We will be continuing to learn and sharing the information with our school community, friends, family, and community, we will post everything we do to our facebook page. We will also be participating in hands-on learning by getting out into the space and identify the different pollinators that we see and how they interact. We will also be sharing online about pollinator week.

5. Celebrate Pollinators:

We will be participating in National Pollinator week and any other events we come up with.

I/we, the undersigned agree to:

1. Publicly acknowledge Bee City School designation through publicly displayed signage, city/region/community website and other means.
 2. Annually re-apply for Bee City School designation. A renewal application will be sent to you.
-

Please submit a short 50-100 word write-up of why it's important to become a Bee City School.

Our school believes that it is important to keep bees alive! We believe it is important for us to become a Bee City school because it helps bring awareness to the community and supports the student's interests. We have been learning about the importance of the world around us and keeping our planet safe, this includes the bees. We have the benefit of having lots of yard space to build and expand our

pollinator garden to give the bees a large space to thrive! We are committed to continuing to learn about bees and to help keep bees protected.
