Lydia Galichan-Jasmin	Conseillère environnement	lydia.galichan-jasmin@saint-lambert.ca

Please tell us about your efforts during the past year to create, enhance, and manage habitat for pollinators. Examples of these actions include habitat planning and creation, habitat management, practices that minimize harm to pollinators, such as minimizing exposure to pesticides and artificial nighttime light, and efforts to empower and incentivize residents to create habitat, such as plant giveaways and modifications to property by-laws (see checklist below for more examples).

- Modification réglementaire au niveau de l'urbanisme pour tolérer les pelouses alternatives en façade.
- Parcelles de démonstration de pelouses alternatives
- Insertion d'un volet «jardin pour pollinisateur» dans le concours de propriété fleuri. Un prix spécial à été remis au meilleur jardin de pollinisateurs.
- Des arbres et arbustes fruitiers ont été plantés lors d'une plantation communautaire dans un parc de Saint-Lambert
- La Ville participe et faire la promotion du défi pissenlit

Habitat created or enhanced

43.2 m²

Plants

0

Seed (lbs)

19.84

1.1 HABITAT PLANNING AND CREATION

- 1.1.2 Create edible gardens, orchards, and food forests

1.2 HABITAT MANAGEMENT PRACTICES

- 1.2.2 Restrict chemical applications that can negatively impact pollinators
- 1.2.5 Restrict urban honey beekeeping

1.3 EMPOWERING AND INCENTIVIZING RESIDENTS TO CREATE HABITAT

- 1.3.1 Modify lawn bylaws to empower residents to create habitat

Please tell us about your efforts during the past year to provide pollinator education and engagement opportunities to members of your community, including residents, employees, contractors, children, and other groups. Examples of these actions include promotion of pollinators through media channels and signage, providing education and engagement opportunities, such as talks and planting events, developing educational resources, such as local native plant and pollinator lists, and raising awareness about pollinators at broader community events (see checklist below for more examples)

- Atelier en camp de jour sur les pollinisateurs
- Distribution de semence par l'Éco Brigade lors d'un kiosques sur les pollinisateurs lors de la semaine des pollinisateurs
- 2 activités citoyennes de sensibilisation sur l'abeille est les pollinisateurs donnée par Polliflora

Number of people reached through education and engagement efforts

120

2.1 MEDIA, EDUCATION, AND MATERIALS

- 2.1.5 Educate youth about pollinators through schools and camps

2.2 ENGAGEMENT EVENTS AND ACTIVITIES

- 2.2.1 Feature pollinator talks and workshops
- 2.2.7 Feature pollinators at broader community events

Please tell us about your efforts to celebrate Pollinator Week this past year. Examples of these actions include promoting Pollinator Week through a proclamation and other communications, hosting a Pollinator Week festival, unveiling pollinator-themed public art, hosting a habitat creation or maintenance event, providing Pollinator Week giveaways, and anything else that you are doing to promote pollinators during this time (see checklist below for more examples).

L'Éco brigade c'est rendu au centre-ville sur l'heure du diner afin de tenir un kiosque sur les pollinisateurs. Ils ont également donné des sachets de semences indigènes aux citoyens rencontrés.

3.1 ACTIONS TO PROMOTE POLLINATOR WEEK

- 3.1.3 Launch a social media campaign

3.2 ACTIONS TO CELEBRATE POLLINATOR WEEK

- 3.2.2 Recognize community efforts through pollinator garden contests

Has your community posted Bee City Canada signage?

No

Has your community created a Bee City website or webpage?

No

Please share plans that you have to support pollinators this coming year. It may help to refer to the action checklists in the previous sections as you plan future initiatives.

- Établir un plan sur la gestion des espaces verts, notamment via la coupe différenciée
- Création d'un hôtel à insectes (soit avec des jeunes ou des citoyens) et le placer dans notre aménagement végétalisé. Mettre de l'affichage pour expliquer ce qu'est cet hôtel
- Davantage impliquer notre service des communications afin de donner plus de visibilité à cette cause

Select the appropriate fee based on your community's population.

10,000 – 25,000 population - \$200

Payment Method

Offline

Have you had any challenges with pollinator initiatives that you would like to have more support with?

Nous aimerions réaliser des activités de sensibilisation avec les citoyens donnés par notre Éco brigade. Toutefois, nous manquons parfois d'inspiration, de connaissance ou de ressource pour monter ces ateliers. Peut-être que Bee City pourrait nous proposer des activités.
